REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of an objective lens for an optical pick-up device having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including the reasons for allowance given in the office action mailed on 10-4-07, page 2, paragraph 2.

Therefore, in light of the Applicants' arguments and/or amendments, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following are U.S. Patents and U.S. Patent Pubs. directed to optical pick-up apparatuses and their objective lenses, which utilize various configurations of diffractive zone(s):

3. Please note that the number of claims on the PTO-326 (mailed on 10-4-07), item 4, incorrectly listed the claims as "1-15." The Notice of Allowance (PTO-37, herein) correctly lists the number of claims allowed, as claims 1-17, in item 2. Please also note that this correction is carried through all of the papers of record, which originally, incorrectly listed the number of claims, such as the index of claims, etc.
